

## SECTION: CLAIM AMENDMENTS

Pursuant to 37 CFR 1.121, a complete listing of all claims in the application, and their status, is set forth below. The text of each pending claim is also provided. Please amend the pending claims as follows, wherein added matter is underlined and deleted matter is ~~stricken through~~ or ~~[[double bracketed]]~~ in the text of the currently amended claims, relative to the immediate prior version. The claims in this listing are deemed to replace all prior claims in the application.

1. (Original) A polytunnel system comprising a plurality of cover support members, a series of leg members and a cover, the cover support members being supported by associated leg members, wherein the cover support members are securable to the leg members at a plurality of different heights.
2. (Original) A system according to Claim 1, wherein each leg member carries a bracket which, in turn, carries the associated cover support member, the bracket being securable to the leg member in a range of positions.
3. (Original) A system according to Claim 2, wherein each bracket defines a passage through which the associated leg member extends.
4. (Original) A system according to Claim 3, wherein the bracket defines an opening and the associated leg member is provided with a series of openings, a fixing pin being locatable within the opening of the bracket and selected one of the openings of the leg member to secure the bracket in a selected position.

5. (Currently Amended) A system according to ~~any one of the preceding claims~~ Claim 1, wherein each bracket includes at least one arm onto or over which part of an associated cover support member can be located.
6. (Currently Amended) A system according to ~~any one of Claims 1 to 4~~ Claim 1, wherein each bracket includes at least one socket arranged to receive an end part of an associated cover support member.
7. (Currently Amended) A system according to ~~any one of the preceding claims~~ Claim 1, wherein the ends of the cover support members extend generally vertically.
8. (Currently Amended) A system according to ~~any one of the preceding claims~~ Claim 1, further comprising moveable rope anchorage points, the vertical positions of which can be adjusted.
9. (Cancelled)
10. (Original) A bracket adapted for use in a system according to Claim 2.
